

Writing at Rowner Junior School

Our love of high quality texts drives our writing at Rowner Junior School. Whether this is picture books, video clips, novels or knowledge we bring and share with each other. We aim to develop children's confidence and above all their enjoyment of writing. By equipping them with the technical tools to construct their writing, they are able to do this with more independence. We actively encourage drafting and editing skills and focus teaching on spelling, grammar and handwriting. Alongside giving children the technical skills to write, we aim to nurture their creativity and passion. We encourage them to actively think about what it means to be a writer and allow children the time and space to develop their own style and confidence.
